- **Frontend Instructor at TSD – Mansoura - (March 2024) to (November 2025)**
 - Taught front-end development with HTML, CSS, JavaScript, React, and Next.js
 - Guided students through projects, code reviews, and development best practices.
- **Frontend Developer at SERV5 – Mansoura - (August 2024) to (August 2025)**
 - working on developing front-end interfaces for projects using Next JS and React JS
 - converting Figma design files into real projects using the latest packages (Next JS, Shadcn Ui, typescript (TS), Zustand for state management, Framer Motion, etc....)

Education

- **Bachelor of Engineering – Mansoura University - (2020 to 2025)**
 - **Major:** Computer and Control system
 - **Total Grade:** very good with honors
 - **Graduation Project:** AI-based Malware Detection & Analysis - **Grade:** Excellent

Projects

- **[Courses platform](#)**
 - Developed a medical courses website using Next JS 15, Shadcn UI, and next-intel for supporting multi language
 - Using Zustand for handling user information ,cart ,favorites and courses history
 - Developing payment with points and verification discount with coupons
- **[Subcode](#)**
 - Developed company portfolio website supporting multi language using Next JS 15, Shadcn UI, React Bites and scrolled animation

- **Shgarde E-commerce**
 - Developed an e-commerce website using Next JS 15, Shadcn UI, Zustand for handling user, cart and favorites states and next-intel for supporting multi language
 - developed an affiliate platform with admin features to create products' links and points system
 - Implemented an online and cash payment system
- **Art Space**
 - Developed an e-commerce website using Next JS 15, React JS 19, Typescript, Tailwind CSS V4, Shadcn UI and Zustand for state management and next-intel for supporting multi language
 - Using React Query V5 and Axios for handling API requests
 - Implemented an online and cash payment system
- **Sea Tourism**
 - Developed hotels and Visa Booking website using React JS 19, Shadcn UI
 - Using Framer motion for handling animation
 - Using React Hook Form and Zod for building functionality for booking
- **Anonymous Defenders**
 - Developed a Malware detection and analysis website using Next JS 15, Shadcn UI
 - Using React Hook Form and Zod for building functionality for analysis uploaded files
 - Using Zustand for handling user information and files' history
 - Using Magic-Ui library for 3D animated object

Certificates

- **Frontend Diploma – Route Academy – Cycle 43 – (July 2023)**
- **Job Market Requirements - RITC Mansoura University – 2024**

Skills

- **Frontend:** HTML5, CSS3, JavaScript, React JS, Next JS, Tailwind CSS, Bootstrap, Zustand, Typescript, Framer Motion, Shadcn Ui
- **IT Skills:** Excellent Microsoft Office, Adobe Photoshop, Adobe illustrator, Canva
- **Presentation, Communication, Leadership, Problem Solving, Analytical Thinking**

Language

- **Arabic:** native
- **English:** good

Personal Information

- **Date of birth:** January 7, 2002
- **Military Services:** Exempt
