

# KEROLOS NESSIM EDWAR

Frontend Developer (React.js / Next.js)

keronessim9@gmail.com | 01066122783 | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

## PROFESSIONAL SUMMARY

---

Frontend Developer with over two years of experience developing production web applications with React.js and Next.js, including role-based dashboards, booking platforms, and e-learning systems. Experienced in translating Figma designs into responsive, accessible interfaces, integrating REST APIs, and managing application state with Zustand and TanStack Query. Combines hands-on development experience with front-end instruction, having taught React.js and Next.js fundamentals to student developers.

## TECHNICAL SKILLS

---

**Frontend:** React.js, Next.js, JavaScript, TypeScript, HTML5, CSS3

**Styling & UI:** Tailwind CSS, Shadcn UI, Bootstrap, Framer Motion, Responsive Web Design

**State & Data:** TanStack React Query, Zustand, REST API Integration, React Hook Form, Zod

**Tools & Workflow:** Git, GitHub, Figma-to-Code Implementation, Firebase Cloud Messaging

**Other:** Microsoft Office, Adobe Photoshop, Adobe Illustrator, Canva

## PROFESSIONAL EXPERIENCE

---

### Frontend Developer — Subcode

*June 2025 – Present*

- Developed responsive, production-grade front-end interfaces using Next.js and React.js for custom-built client projects.
- Built POS and LMS dashboard systems using Next.js and React.js, translating business requirements into functional, custom interfaces. [MISSING INFORMATION: number of modules/users would strengthen this]
- Integrated REST APIs into existing templates and customized UI/UX to align with project-specific requirements.

### Frontend Instructor — TSD

*March 2024 – November 2025*

- Taught front-end development fundamentals — HTML, CSS, JavaScript, React.js, and Next.js — to student developers. [MISSING INFORMATION: number of students/cohorts]
- Reviewed student code and guided project-based learning, reinforcing component-based architecture and development best practices.

### Frontend Developer — SERV5

*August 2024 – August 2025*

- Developed front-end interfaces for client projects using Next.js and React.js, converting Figma design files into production-ready, pixel-accurate components.
- Implemented client-side state management with Zustand and built interactive UI animations with Framer Motion, using TypeScript and Shadcn UI for reusable, maintainable components.

## PROJECTS

---

### [Hala Wa Sahla — Domestic-worker-platform](#)

- Developed a multilingual contract renewal platform with a multi-step wizard for employer and worker data collection, document validation, signature capture, pricing, and review/confirmation workflows.
- Implemented robust frontend flows for order tracking, payment initiation, and session-aware status updates using React Hook Form, Zod validation, TanStack Query, and persisted draft/session management
- Integrated real-time communication and notifications with Firebase Cloud Messaging, Laravel Echo, and Pusher to push status changes and support chat updates across the user journey.
- Built responsive, API-driven landing, blog, and tracking experiences using Next.js App Router, server/client data fetching, localization, reusable UI components, and PDF/print export for final contract delivery.

*Tech Stack: Next.js 16, React 19, TypeScript, Tailwind CSS, Next Intl, TanStack React Query, React Hook Form, Zod, Firebase, Laravel Echo, Pusher, jsPDF, html2canvas-pro, React Signature Canvas*

**ME-Pharmacies Dashboard**

- Developed a role-based pharmacy operations dashboard for Super Admin, Supervisor, and Pharmacist users with secure authentication and protected routing.
- Built inventory management, bulk product import, inter-pharmacy transfers, cash and delivery tracking, stock requests, and task workflows, including Excel export and print reporting.
- Implemented staff administration, real-time chat, and Firebase push notifications to support cross-pharmacy coordination.

*Tech Stack: Next.js, React, TypeScript, Tailwind CSS, TanStack React Query, Zustand, React Hook Form, Zod, Firebase Cloud Messaging, Laravel Echo, Pusher, REST API*

**Nada Salma Courses — E-Learning & Private Tutoring Platform**

- Built a bilingual (Arabic/English) platform enabling students to browse courses, manage carts, and book private tutoring sessions with real-time availability updates.
- Delivered role-based student and teacher portals with secure authentication, profile management, time-slot scheduling, and booking workflows.
- Implemented responsive UI with form validation, embedded video support (YouTube/Vimeo/Drive), and Next.js API route proxies.

*Tech Stack: Next.js 15, React 19, TypeScript/JavaScript, Tailwind CSS, next-intl, Zustand, React Hook Form, Zod, Radix UI, REST API*

**Sea Tourism — Hotel & Visa Booking Platform**

- Built a tourism and travel booking platform enabling users to explore hotels, destinations, and visa services with a seamless booking experience.
- Developed responsive booking workflows with dynamic forms, validation, and real-time user interactions for hotel reservations and visa applications.
- Implemented interactive UI animations using Framer Motion, with reusable and scalable components built using Shadcn UI.

*Tech Stack: React 19, TypeScript/JavaScript, Tailwind CSS, Shadcn UI, Framer Motion, React Hook Form, Zod, TanStack Query, REST API*

**EDUCATION**

---

**Bachelor of Engineering — Mansoura University**      2020 – 2025

Major: Computer and Control Systems | Grade: Very Good with Honors

Graduation Project: AI-Based Malware Detection & Analysis — Grade: Excellent

**CERTIFICATIONS**

---

- Frontend Diploma — Route Academy (Cycle 43), July 2023
- Job Market Requirements — RITC, Mansoura University, 2024

**ADDITIONAL INFORMATION**

---

Languages: Arabic (Native), English (Good)
